

EDUCATION

Thapar Institute Of Engineering And Technology , Patiala	Patiala, India
Master of Computer Application; GPA: 8.46	July 2023 - Present
SS Mota Singh Sr. Sec. Model School , Delhi	Delhi, India
CBSE Board, PCM Marks: 91%	April 2012 - March 2023

SKILLS SUMMARY

• Languages:	C/C++, GoLang, HTML/CSS, Javascript, Python, SQL
• Frameworks/Libraries:	React, Node, Express, Pandas, Numpy, Scikit-Learn
• Tools:	GIT, PostgreSQL, MySQL, Excel, PowerPoint, SQLite
• Platforms:	Jupyter Notebook, Visual Studio Code, Arduino, Raspberry
• Soft Skills:	Leadership, Event management, People Management, Excellent communication

WORK EXPERIENCE / POSITIONS OF RESPONSIBILITY

Student Research Intern TIET	July 25 - Present
- Conducted cutting-edge research on cancer detection using Explainable AI and Federated Learning, enhancing model transparency while preserving patient data privacy. - Collaborate with a multidisciplinary team to develop decentralized machine learning models, ensuring compliance with medical data security standards and ethical AI practices. - Analyze model performance and interpretability metrics to validate clinical relevance, supporting the development of trustworthy and transparent AI-driven healthcare solutions.	
Joint Secretary MLSC, TIET	April 25 - Present
- Conducted cutting-edge research on cancer detection using Explainable AI and Federated Learning, enhancing model transparency while preserving patient data privacy. - Collaborate with a multidisciplinary team to develop decentralized machine learning models, ensuring compliance with medical data security standards and ethical AI practices.	

PROJECTS

LINKY – URL Shortener Web Application LINK	May 24 - June 2024
- Enhanced an open-source URL shortener with custom redirect support, handling over 1,000+ active links and enabling real-time analytics. - Secured frontend routes using Redux and implemented role-based access control to reduce misuse by 70%. - Optimized service performance through Redis caching and Dockerized Golang microservices for concurrent traffic handling.	
MLSC TIET Website LINK	January 24 - February 2025
- Launched the official chapter website to showcase teams, events, blogs, and contact channels for a 1,000+ member community. - Crafted interactive scroll-based animations using GSAP, increasing user engagement and average session duration by 30%. - Implemented responsive design and lazy loading for optimized performance across devices, reducing bounce rates significantly.	
Food Festival Website LINK	January 25 - March 2025
- Built responsive beach-themed 3D platform using React, achieving cross-device compatibility from desktop to mobile. - Developed integrated registration platform with Google Forms API and local storage, handling 1000+ user registrations with 100% form validation accuracy and real-time error handling. - Implemented responsive gallery system with modal displays and Cloudinary CDN integration, optimizing load times by 60% while supporting 200+ media assets across multiple folder structures.	

CERTIFICATES

Programming in Python (Meta) CERTIFICATE	March 2023
- Mastered fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures. - Acquired expertise in procedural programming paradigms and associated logical concepts, enhancing capabilities.	
Introduction to Data Analyst (IBM) CERTIFICATE	March 2023
- Learned about the data ecosystem, including the ETL process and big data basics. - Mastered data gathering, identification, and cleaning for analysis preparation.	
Foundations: Data, Data, Everywhere(Google) CERTIFICATE	March 2023
- Developed a comprehensive understanding of the data life cycle and various stages involved in the data analysis. - Introduced to diverse applications designed to streamline and optimize the data analysis journey, enhancing efficiency and accuracy.
